Alphafuckenbetical order, or more like Roy G Biv. When we stray from sets and orders like these it's in the dis-obedience we play. Sometimes when things look good together it's like a rhyme. That's kind of what the works in this show do.

Nathaniel de Larges two coin-like aluminum leaf reliefs; *Artio & Volos*.

Matthew Fischer's *Tollbox's* with coin slots, made from stained glass and hammered aluminum.

Rachel B Hayes *Gold Sounds 1 and 2*, nylon scrim works, halve the space lengthwise, you can peel your way through the corridors it leaves behind.

A Gracelee Lawrence chromo-spectral 3D printed banana/foot fusion titled, *The Whole Hand*.

Ryan Trecartins hand made drawings are like ...*Mental Health Hide and Seek...*
